# "The World's Window Into West Hollywood"

We are more than a simple newspaper; we are **ONLY ONLINE**, so we act as West Hollywood's Public Square – that place where people come to exchange goods, services and ideas.

*Founded in September 2005, by local historian Ryan Gierach, as a "public square," a place for news, info and safe civic dialogue about West Hollywood.*

*Images of America: West Hollywood by Mr. Gierach is the only history of West Hollywood published to date.*
